jkotania

Computer Science graduate (Engineering Thesis with Distinction) and Software Developer with over 2 years of experience in building mobile (Flutter) and web (Next.js) applications. Unique skillset combining full-stack development with practical knowledge of AI data quality and model integration. Proven track record of delivering business value, including a 34% increase in user growth and a 26% improvement in image recognition accuracy.

Education

Silesian University Of Technology
Computer Science
Gliwice, Poland — 2026–2027

Academy Of Silesia ★
Computer Science
Katowice, Poland — 2021 - 2025

Skills

JavaScript, React, Next.js, HTML, CSS, SQL, Flutter, TensorFlow, C/C++, AGILE, Python, JAVA

Tools

ClickUp, Figma, Framer, VSC, FlutterFlow, CRM Systems

Certificates

CS50x | Computer Science | Harvard University

Next.js 15 & React - The Complete Guide | Udemy

CS50w | Web Development | Harvard University

Frontend Web Development Crash Course (Html, Css & Js) | aptLearn

Languages

Polish - Native

English - B2

Hobby

Sports

Gym

Computer Games

PC Building

Graphic Design

Achievements

- Defended my engineering thesis with distinction. ★
- Won first place in a competition to design a mobile application for Radio Silesia.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

Experience

TELUS Digital — Remote
AI Data Specialist — June 2025 - Jan 2026

Problem Solving, Attention To Details, Communication

- Ensured high standards for data quality and consistency by strictly adhering to project guidelines, a core component of project quality management.
- Proactively identified and helped resolve data inconsistencies, mitigating risks to the quality of AI/ML training models.
- Managed data annotation tasks efficiently using specialized tools, contributing to the timely delivery of high-quality datasets for critical AI projects.

Kodland — Remote
Tutor — May 2024 - July 2025

Python, HTML, CSS, JavaScript

- Managed student learning paths by breaking down complex technical projects into understandable milestones and tasks.
- Mentored individuals through the full project lifecycle, from initial concept to the final delivery of websites and games.

Kombuczara — Remote
Junior Software Developer — Oct 2023 - Mar 2025

Flutter, API, Design, TensorFlow, Firebase, YOLO

- Led the end-to-end development of a mobile application, coordinating the integration of an AI algorithm that improved a key business metric (image recognition) by 26%.
- Managed the integration of third-party APIs (Google Maps, TikTok), which directly contributed to a 34% increase in active users within a 3-month period.
- Translated stakeholder requirements into user-friendly interfaces, prioritizing a positive user experience to drive adoption and engagement.

Grupa ATERIMA — Kraków, Poland
Internship — July 2023 - Sep 2023

C#, Enova365, Microsoft SQL Server, ERP, Help Desk

- Managed and prioritized a high volume of service requests (40+ per month), demonstrating effective time management and problem-solving under pressure.
- Proactively monitored system health to identify potential risks, contributing to a 15% increase in system availability.

Projects

LogiX — github.com/logix

Next.js, TailwindCSS, UX/UI

- Designed and developed a responsive web platform for software agencies using Next.js. Created a custom, high-performance UI/UX design system tailored to modern IT industry standards, focusing on SEO and scalability.
- Implemented interactive frontend features and dynamic components, demonstrating a creative approach to bridging the gap between design concepts and functional code.

MOGO — github.com/mogo

Next.js, Supabase, Responsive Design

- Developed a modern, responsive website for a furniture brand using React, evolving the project from an initial academic concept into a fully polished, production-ready product.
- Focused on component modularity and pixel-perfect implementation to deliver a premium user experience across mobile and desktop devices.
